

CareGuard Tool-less Transfer Bench – Spec Sheet

Transfer benches extend beyond the edge of the bathtub. If your mobility is restricted, transfer benches can help you safely transfer in and out of the tub. They offer ample seating areas, backrests, adjustable height legs and arm rails which provide additional support. Transfer benches are available with or without padding.

- Tool-free assembly 315 lb. weight capacity transfer bench.
- No Tools required to assemble
- Three-piece blow molded textured seat with drain holes
- Aluminum legs with 1/2" snap button adjustments to help with stability
- Wide based crutch tips and suction cups help with stability
